COMPETENCES & INTERESTS

IoT solutions, Embedded Systems, Digital Transformation, IA and Machine Learning, Software Developing.

SKILLS

ABOUT

Hi, I'm João Vitor de Siqueira, a electrical engineering student, mechatronics and mechanical technician and a person who loves create and develop things.

I'm 21 years old and I've been in industry since my 18, that experience changed my life and allowed me to discover a new world. When I started programming and developing solutions, I knew that was what I want to my life.

EXPERIENCE

Bosch

Official of Industrial Training I

DEC 2021 - PRESENT

Electronics, embedded systems programming, robotics and Internet of Things trainer for apprentices. Leadership of the Systems Analysis and Development apprentices, learning period on full-stack developing with C#, Angular, JS and other features.

Mechatronics Technical Apprentice

FEB 2020 - DEC 2021

Mechatronics technical learning period including mechanical processes (CNC and conventional machines), SolidWorks, industrial automation, specialization in electronics and IoT applications.

EDUCATION

Universidade Federal do Paraná (UFPR)

Electrical Engineering, emphasis on embedded systems, bachelor's degree.

FEB 2020 - PRESENT

Bachelor's student in Electrical Engineering, with emphasis on embedded systems, at UFPR

Serviço Nacional de Aprendizagem Industrial (SENAI)

Mechatronics Technician

FEB 2020 - DEC 2021

Instituto Federal do Paraná (IFPR)

Mechanical Technician

FEB 2020 - DEC 2021
